

## SWAV

Sibley Women Against Violence is a support group for women who are experiencing or have experienced domestic violence. We offer a confidential, safe, and non-judgmental environment for you to share your story. Our hope is that you will form supportive relationships with the other members of the group and realize that you are not alone in this journey.

For your safety and protection, the location, date and time of these meetings are intentionally omitted.

Please call the Sibley County Attorney's Office during normal business hours at (507)-237-7425 or (507)-479-0270, for this information and any other questions you may have.

Onsite child care services will most often be available. However, if you require child care services, you **MUST** call the Sibley County Attorney's Office in advance indicating how many children will attend and their ages.

We look forward to meeting you!
